A CUTTING-EDGE RESORT

Jim Olson, a world-renowned architect, designed the new JW Marriott Los Cabos Beach Resort & Spa with a provocative thought: an ambition to capture the richly colored blue found in the Sea of Cortez from every perspective. At the same time, he envisioned horizontally structured frames encompassing the beauty and warm desert hues, as well as textures found among the deserts of the Baja California Peninsula. Our doors to this location opened in the fall of 2015, at the exclusive residential master-planned development called Puerto Los Cabos. It is here that travelers have full access to one of the most sought-after golf courses in the world today, designed in a joint effort by both Greg Norman and Jack Nicklaus. Our guests will absolutely enjoy one of the most impeccable marinas worldwide, offering yachts, fishing, swimming with dolphins and so much more.

MAGIC IN LOS CABOS

Conveniently located only 25 minutes from the Los Cabos International Airport, we are perfectly situated in the heart of San Jose del Cabo. Guests will enjoy the traditional, authentic Mexican downtown area offering an abundance of things to do, including visiting the Mission Site, browsing an abundance of international art galleries, learning about the colonial history, enjoying the nightlife and wonderful boutique shops and, of course, tasting the world-famous culinary tourism specialized in Baja California fusions.

THE AQUARIUM OF THE WORLD

Through our Tamaral Adventure Desk, guests are afforded the opportunity to experience the only place in the world where six different types of whale species migrate to: the warmer waters found in the Sea of Cortez and Pacific Ocean. By the end of November, and all the way through April, whales trek up to 6,000 miles in their migration rituals in order to give birth to their offspring. Whale-watching tours are exhilarating during this particular time of year. In addition, guests always enjoy numerous additional activities and ecotourism experiences, such as ATVs, horseback riding, fishing, snorkeling and scuba diving, among many others.

LUXURY & COMFORT

Offering a variety of options for all of our distinguished guests, the 299 guest rooms sit atop the very best hideouts surrounded by natural beauty. Whether you're relaxing on Kettal chairs from your terrace overlooking the Sea of Cortez, or resting in your spacious, impeccably designed guest room, your experience will be as unique as it comes. With wood textures and warm tones throughout, the architecture pays homage to the desert and sea.

DESIGN IN EVERY DETAIL

In these inspired surroundings, our guests are not only pampered throughout their stay, but fascinated by architectural details that astound them at each and every turn. From swimming pools that adhere to the most modern architectural designs to quaint waterfalls projecting out to the horizon line of the Sea of Cortez to the amazing wooden pergolas and tables with volcanic stove stones, our guests remain completely dazzled. Even the common areas reflect a warmth and sophisticated atmosphere unlike any other resort in Los Cabos today. We like to say that our guests are always "immersed in art."

FRESH WATER & SALT WATER

Relax or swim in a variety of infinity pools found around the property. Amenities such as pool decks, private cabanas, sea water pools and plush lounge chairs are offered for a one-of-a-kind experience.

FAMILY FUN

Enjoyment for families was conceived at the very outset when we designed our resort. At our Nayaa-Kot Kids & Teens Club, children of all ages find entertaining and enriching activities, such as outdoor storytelling evenings at the amazing Sum-San Amphitheater. Our aim is to provide parents a safe and comfortable environment that allows them some free time, knowing that their children are always in safe hands and supervised by certified specialists, making a perfect family holiday retreat.

HEALTH & WELLNESS

At JW Marriott, we've considered the important evolution in today's hospitality, health and wellness industries. Guests at our resort are offered a wide variety of enriching activities in our private garden area, featuring the latest trends of well-being programs in our state-of-the-art Mimah Fitness Center, which showcases high-performance equipment with a personal trainer. In addition, we have designed an artificial grass court for tennis lovers.

MILLENNARY RITUALS

Guests can immerse themselves in a pre-Hispanic Mexican atmosphere inspired by healing herbs and organic ingredients, amid a harmonious relaxation lounge. Our Jasha Spa & Salon offers pools, saunas, jacuzzis, a beauty salon, double treatment suites and the ancient Temazcal ritual that connects guests with their inner selves. For parents who would like to indulge themselves at our spa for some quiet time, we offer the Nayaa-Kot Kids & Teens Club option (see above).
